## **Internet Acceptable Use Policy (05-08)**

Colorado West Christian School believes that the Internet has much to offer students with its wide variety of resources. It is our goal to educate students about efficient, ethical, and appropriate use of those resources. Within the context of our mission statement as a school, the Internet connection will be used to meet the goals in our curriculum. Specifically, students will have the opportunity to enhance their learning through:

1. a wealth of additional resources for reference and research;
2. consulting with experts in a variety of fields;
3. learning to conduct searches, evaluate resources, and locate relevant material;
4. and interacting with up-to-date primary sources.

In order to assist students in learning to use the Internet correctly, the school will do everything that it can to insure that students access the resources appropriately including providing:

1. a reliable connection that is protected by filtering software; (Filtering is intended to block sites that are objectionable for content, language, or a variety of other things that the school has defined as inappropriate , such as releasing personal information.)
2. supervision of students while they are using the Internet;
3. training for students that clearly spells out what is appropriate and what is inappropriate. (Students will be given general instruction about what is available on the Internet and how they can find what they are looking for through searches, how to save, and how to print.)

Only students who have a signed agreement (by both student and parent/guardian) will be allowed to use the Internet independently. Expectations for the student will be clearly spelled out, and students will be aware of what constitutes a violation.

Note: Occasionally, whole classes with their teachers will use the Internet as one of many tools in the research process. If the student does not have a signed agreement, he may request the information from the teacher or other staff as time and opportunity permit.

**It is to be understood that Internet access for students is a privilege, not a right.**

All users of the Internet will agree to adhere to the following Code of Ethics:

*I will strive to act in all situations with honesty, integrity, and respect for the rights of others and to help others to behave in a similar fashion. I will make a conscious effort to be a good testimony to my fellow students, faculty members, and others with whom I communicate on the Internet. I agree to follow Colorado West Christian School's rules. I will strive to apply Philippians 4:8 to my electronic communication: "Finally brothers, whatever is true, whatever is noble, whatever is right, whatever is pure, whatever is lovely, whatever is admirable—if anything is excellent or praiseworthy—think about such things."*

The Internet user is held responsible for his actions when using the Internet and any action done under his login name. A student **MUST** be logged in to the computer under his own name to access the Internet. **Unacceptable uses of the network will result in the suspension or revocation of these privileges.** Some examples of unacceptable use are:

1. using the network for any illegal activity;
2. using the network for accessing any pornographic or otherwise inappropriate sites;
3. using the network for financial gain or initiating any financial transactions;
4. degrading or disrupting the equipment or system performance; (Any security problem must be reported to the technology coordinator and not shared with other users.)
5. accessing or vandalizing the data of another user, or using the login of another user—with or without that user's permission;
6. wastefully using finite resources, after being warned and instructed as to proper use;
7. gaining unauthorized access to resources, including attempting to get around the filter installed on a computer with Internet access;
8. invading the privacy of individuals including reading mail that belongs to others without their permission;
9. posting personal communications without the author's consent or posting information containing information not meant to be made public;
10. posting rude or inappropriate messages;
11. downloading viruses or attempting to avoid virus protection programs;
12. violating the spirit of the Colorado West Christian School's Mission Statement;
13. writing/sending any type of chat or instant messaging or personal e-mail; (School projects can be sent to and from home with the approval and supervision of the teacher.)
14. obligating CWCS in any way—financial or otherwise;
15. disclosing personal information to websites or people through the Internet; (This prohibition includes requesting magazines, catalogs, etc.)
16. using of resources in any inappropriate manner resulting in plagiarism.

The Internet user and his parents must understand that he uses the Internet at his own risk. Considering the provisions mentioned above, CWCS cannot assume responsibility for :

1. the reliability of the content of a source received by a user; (Students must evaluate and cite sources appropriately;
2. costs that the students incur if they request a product or service for a fee;
3. any consequences of disruption in service that may result in lack of resources; (Though every effort will be made to insure a reliable connection, there may be times when the Internet service is down or scheduled for use by teachers, classes, or other students.)
4. privacy of electronic communications. (The administration reserves the right to investigate possible misuses and to monitor any communication that comes through CWCS's computers.

By signing the consent and wavier form attached, the student agrees to abide by these restrictions. The student and parent or guardian must sign after they have discussed these rights and responsibilities together.
